

Sub-Working Group on Spectrum Management

Update on Project proposal

**Technical and regulatory approaches to
facilitate use of L band for MBB services**

21th Aug 2017, Phillippines

Highlights

SSM6-2016

22 Aug
Myanmar

■ **Endorsed**

**1st TELSOM/ATRC leaders
retreat 2017**

Mar 2017
Malaysia

- To be decided:
- + Revising inputs to explain on the pressing issues in allocating the frequency band for mobile service
- + Will consider in 2019 cycle

Proposals

- To re-submit this project to high level meetings for their endorsement in 2019 cycle
- To suggest SSM to have discussion about how to accelerate the endorsement of high level meetings for SSM project proposals
- The implementation of project proposal relating to promote the use of a band identified for IMT will bring huge benefits of society and economy for ASEAN

THANK YOU FOR YOUR ATTENTION !
